

JavaScript for Developers

JavaScript Type System

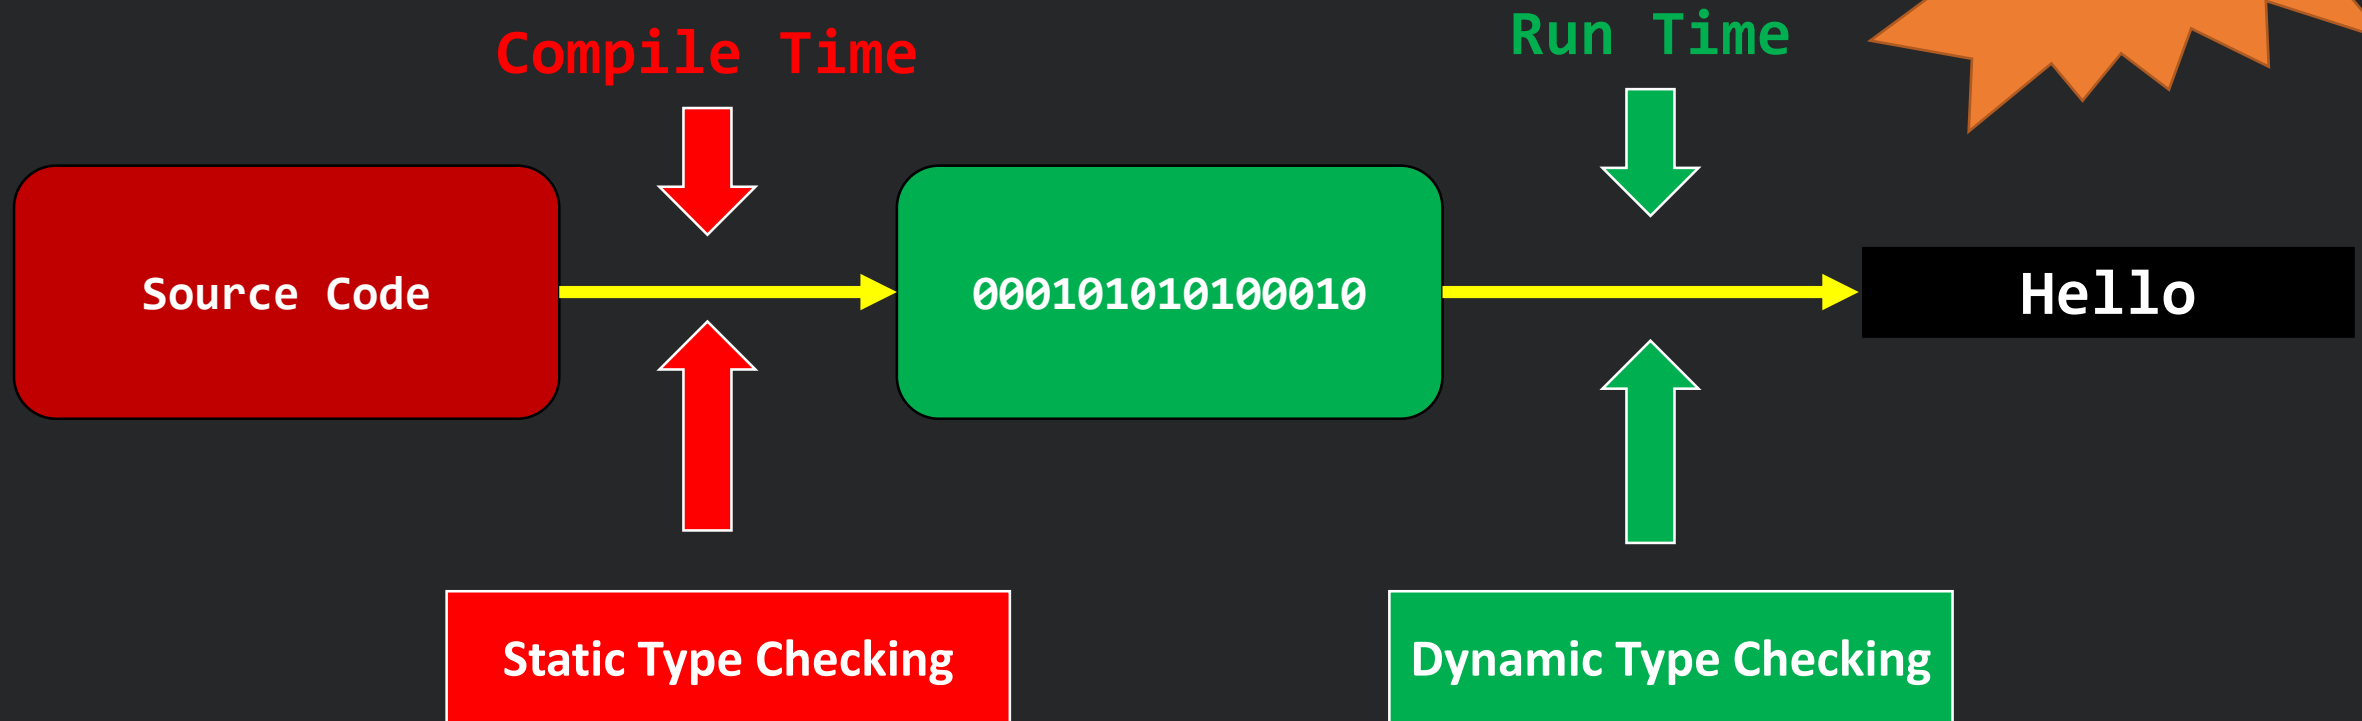

Type System

1. Static vs Dynamic Typing

❖ Quy định thời điểm xác định kiểu của biến?

When?

2. Strong vs Weak Typing

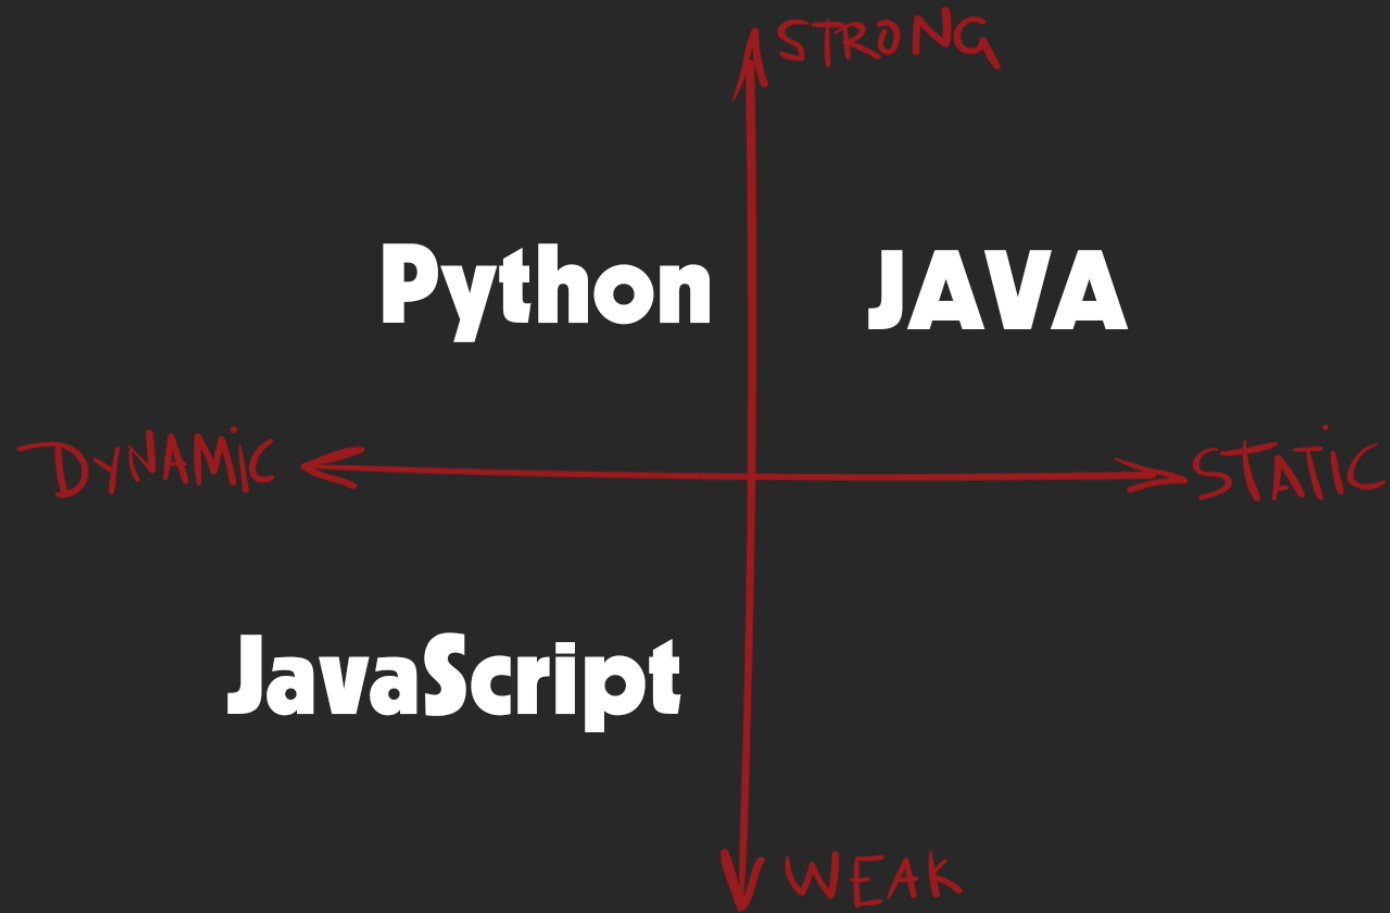

❖ Quy định cách thức convert kiểu của biến.

HOW?

Weakly-typed languages make conversions
between unrelated types implicitly;

3. Type System

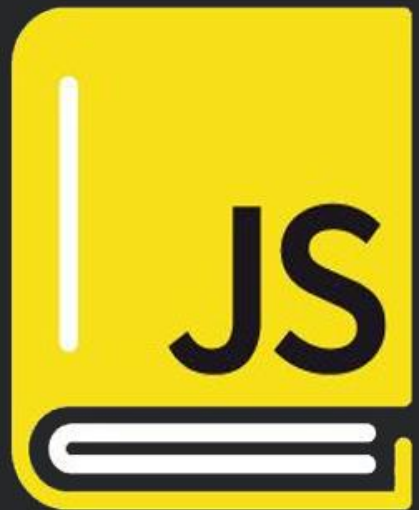

3. JavaScript

❖ JavaScript is a **Dynamic – Weakly** Typing

❖ TypeScript

❖ Chuẩn bị:

✓ Cài đặt **nodemon**: `> npm i -g nodemon`
